

Item 1. Introduction

WT Wealth Management, LLC is registered as an investment adviser with the U.S. Securities and Exchange Commission. Investment Advisory Services and Brokerage fees differ, and it is important for you to understand these differences. Free and simple tools are available to research firms and financial professionals at <https://www.investor.gov/CRS>, which also provides educational materials about broker-dealers, investment advisers, and investing.

Item 2. Relationships and Services

What investment services and advice can you provide me?

We offer investment advisory and financial planning services to individuals, high net-worth individuals, pension and profit-sharing plans, charitable organizations, insurance companies and other businesses. **Accounts:** We service retail nonqualified and qualified accounts as well as institutional accounts. **Investments:** We use exchange listed securities, fixed-income securities, over-the-counter securities, options, derivatives, money market funds, and pooled investment vehicles, such as open and closed end mutual funds or exchange traded funds (ETFs). We also provide free educational services, such as webinars and in-person seminars.

Monitoring: We monitor portfolios and securities in accounts on an ongoing basis. We also meet with you – either in person or virtually according to your preference – at least annually depending on your needs. **Investment Authority:** We provide our services on a discretionary and nondiscretionary basis as requested. We execute investment recommendations and specific transactions, in accordance with your investment objectives, with or without your prior approval, based upon discretionary or nondiscretionary account management status. Our engagement will continue until you notify us otherwise in writing. **Limited Investment Offerings:** We do not make available or offer advice with respect to proprietary products nor to a strictly limited menu of products or types of investments. **Account Minimums and Other Requirements:** We typically do not require an account minimum in order for you to open/maintain an account or establish a relationship.

For more detailed information on our relationships and services, please see Item 4 – Advisory Services and Item 7 – Types of Clients of our Form ADV Part 2A.

Conversation Starters

Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

Item 3. Fees, Costs, Conflicts and Standard of Conduct

What fees will I pay?

Description of Principal Fees and Costs: You will pay an ongoing annual asset-based fee of between 0 and 1.5% of assets under management. This fee will be collected at the beginning of each quarter and is calculated as a percentage of the value of the cash and investments in your account(s) that we manage. For financial planning services, we charge an hourly rate. **Conflicts of Interest:** The more assets in your advisory account, the more you will pay in advisory fees, and we therefore have an incentive to build and/or encourage you to increase the assets in your account. **Other Fees and Costs:** In addition to our advisory fee, you will also be responsible for custodian fees, account maintenance fees, fees related to mutual funds, third-party investment management fees, and other transactional fees, as applicable. You may also pay additional fees for additional services such as financial planning services, these services are billed separately and are charged hourly or at a fixed rate.

Additional Information: You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

For more detailed information on our fees, please see Item 5 – Fees and Compensation of our Form ADV Part 2A.

Conversation Starters

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have? When we act as your investment adviser, we are required to act in your best interest and not put our interests ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. We will recommend that you open your account with a specific custodian, where we have an institutional relationship, receive economic benefits and are able to service your account. We have a financial incentive to recommend that you rollover retirement plan assets into an IRA we manage; however, we seek to educate you on your options and the fees and benefits associated with each choice and then allow you to choose which you feel is in your best interest.

Conversation Starters

How might your conflicts of interest affect me, and how will you address them?

For more detailed information on conflicts of interest, please see Item 12 – Brokerage Practices and Item 14 – Client Referrals and Other Compensation of our Form ADV Part 2A.

How Do Your Financial Professionals Make Money?

Our financial professionals are compensated based on an agreed upon annual salary and/or a periodic discretionary bonus. Additionally, they receive compensation based on the revenue generated from the accounts they service directly. This means financial professionals have an incentive to increase the asset size in the relationship or solicit new business.

Item 4. Disciplinary History

Do you or your financial professionals have legal or disciplinary history?

No, neither firm nor any of its financial professionals currently have a legal or disciplinary history. You can visit <https://www.investor.gov/CRS> for a free and simple search tool to research our firm and our financial professionals.

Conversation Starters

As a financial professional, do you have any disciplinary history? For what type of conduct?

Item 5. Additional Information

You can find additional information about our investment advisory services by visiting <https://www.sec.gov/check-your-investment-professional> and searching with our CRD #: 169566 or by visiting www.wtwealthmanagement.com. You can request up to date information and a copy of our client relationship summary by contacting us at djohnson@wtwealthmanagement.com or (800) 825-0616.

Conversation Starters

Who is my primary contact person? Is he or she a representative of an investment advisor? Who can I talk to if I have concerns about how this person is treating me?

WEALTHMANAGEMENT

FORM ADV PART 2A
FIRM BROCHURE
MARCH 30, 2020

This brochure provides information about the qualifications and business practices of WT Wealth Management, LLC and its registered investment adviser representatives. Any questions about the contents of this brochure may be directed to WT Wealth Management, LLC by calling (800) 825-0616 or by emailing Dave Johnson, Chief Compliance Officer, at djohnson@wtwealthmanagement.com. ITEM 4 ADVISORY BUSINESS

A. FIRM DESCRIPTION

WT WEALTH MANAGEMENT, LLC (“WTWM”) is organized as a Wyoming limited liability company that was founded in 2013.

WTWM is based in Scottsdale, Arizona and has been an SEC-registered investment adviser since March 2018. WTWM’s current business activity consists of providing wealth management services, wealth education services, and financial planning to its clients.

The direct owner of WTWM is WesternTrust, L.P., a Delaware limited partnership. John Heilner is the Chief Investment Officer of WTWM. Dave Johnson is the President and Chief Compliance Officer of WTWM.

B. TYPES OF ADVISORY SERVICES

Investment Advisory Services

WTWM provides discretionary portfolio management services to its clients, based on the specific needs and objectives of such persons and the suitability of products and services. WTWM shall be granted full discretion and authority to manage the client’s account. Accordingly, WTWM is authorized to perform various functions without further approval from the client, such as the determination of securities to be purchased or to be sold without permission from the client prior to each transaction.

Prior to engaging WTWM to provide any of the aforementioned investment advisory services, WTWM requires a written investment management agreement (“IMA”) signed by the client prior to the engagement of services. The IMA outlines the services and fees the clients will incur pursuant to the IMA with WTWM.

Upon request, WTWM will create an Investment Policy Statement for each client, which outlines the client’s current situation (goals, objectives, and risk tolerance levels) and then constructs a plan to aid in the selection of a portfolio that matches each client’s specific situation. Investment Advisory Services include, but are not limited to, the following:

- Investment Strategy
- Asset Allocation
- Regular Portfolio Monitoring
- Personal Investment Policy
- Security Selection

As noted, WTWM’s asset management services are designed to offer portfolio construction and ongoing management of accounts with defined investment strategies to meet the client’s personal investment goals and objectives. WTWM evaluates the current investments of each client with respect to risk tolerance levels and time horizon. Risk tolerance levels may be documented in the Investment Policy Statement which is provided to our clients upon request. WTWM is responsible for providing ongoing re-balancing and continuous monitoring of our clients’ securities holdings.

WTWM generally limits its money management to open and closed end mutual funds, equities, bonds, fixed income and debt securities, ETFs, and REITs. WTWM may use other securities as well to help diversify a portfolio when applicable, and has the ability to service annuities, 529 plans, and other non-custodial accounts.

Wealth Education Services

WTWM believes all investors should be encouraged to increase their knowledge, as education is a key component in empowering our clients to avoid behavioral mistakes that hinder a successful investing experience. We seek opportunities to teach principles that will enhance each client's accumulation, protection and enjoyment of wealth. WTWM believes in transparency and that clients have the right to ask questions, challenge our beliefs, receive forthright responses, and enjoy honest discussion about their investment portfolio. There is no fee involved when WTWM provides wealth education services.

In addition to one-on-one discussions with individual clients, WTWM may also conduct wealth educational events and outings (such as seminars and workshops) on various financial topics for our clients and the general public. Participants can increase their knowledge during these educational events and have the opportunity to ask specific questions by interacting with financial professionals and experts who will instruct such events.

Sample wealth education topics (whether addressed individually or in seminars and workshops) might include, but are not limited to:

- Financial Plans
- Estate Planning
- Succession Planning
- Financial Risk
- Asset Allocation Models
- Modern Portfolio Theory
- Investment Strategies
- Real Estate and Real Estate Investing
- Insurance (all types)
- Medicare or Social Security Enrollment and Administration
- Navigating the Affordable Care Act ("Obamacare") and other healthcare topics
- Tax Planning and Filing
- Financial Negotiation Skills

Publications

WTWM publishes, on various financial, market or macroeconomic topics, a daily market

insight; a monthly market update; a monthly white paper; as well as other articles, videos or podcasts. These publications are posted to the www.wtwealthmanagement.com website and to our social media sites where they are publicly available at no cost to the reader. WTWM also periodically sends e-mails to its clients and contact database in response to significant market or business events.

Financial Planning Services

WTWM may provide additional advisory services in the form of financial planning services. These services are provided on a non-discretionary basis. Financial planning services do not involve the active management of client accounts, but instead focus on a client's overall financial situation. If clients wish to execute their financial plan through WTWM, they may separately engage the Firm for asset management services, which are provided on a discretionary basis. Financial planning can be described as helping individuals to determine and set their long-term financial goals through investments, tax planning, asset allocation, risk management, retirement planning, and other areas. The role of the financial planner is to find ways to help the client understand his/her overall financial situation and help the client set financial objectives.

An inherent conflict exists between the interests of WTWM and the interests of the client. The client is under no obligation to act upon WTWM's recommendation. Should the client elect to act on any recommendation made by WTWM, the client is under no obligation to affect the transaction through the Firm.

C. TAILORED RELATIONSHIPS

WTWM offers the same suite of services to all its clients. The management services and recommendations offered by WTWM are based on the individual needs of our clients and the suitability of products and services. Specific client financial plans and their implementation are dependent upon the client's Investment Policy Statement which outlines each client's current situation (income, objectives, and risk tolerance levels) and is used to construct a client specific plan to aid in the selection of a portfolio that matches restrictions, needs and targets.

Clients may impose restrictions on investing in certain securities or types of securities in accordance with their values and beliefs. WTWM will make every effort to comply with the wishes of the client but cannot guarantee absolute adherence due to its use of indexed products, funds, and ETF's that are controlled by third party managers.

D. WRAP FEE PROGRAMS

WTWM does not participate in and is not a sponsor of wrap fee programs.

Wrap Fee Programs are arrangements between broker-dealers, investment advisers, banks and other financial institutions and affiliated and unaffiliated investment advisers through which the clients of such firms receive discretionary investment advisory, execution, clearing and custodial services in a "bundled" form. In exchange for these "bundled" services, the clients pay an all-inclusive (or "wrap") fee determined as a percentage of the assets held in the wrap account. Due to the nature of its advisory services.

E. ASSETS UNDER MANAGEMENT

When calculating regulatory assets under management, an Investment Adviser must include the value of any advisory account over which it exercises continuous and regular advisory or management services.

As of December 31, 2019, WTWM managed \$169,083,242 in client assets on a discretionary basis and \$10,600,000 on a non-discretionary basis.

F. SOLICITED OR SUB-ADVISED SEPARATELY MANAGED ACCOUNTS (SMA)

WTWM provides investment management services to clients facilitated by independent investment advisers contractually engaged by WTWM (collectively referred to as “Introducing Advisers”). WTWM may also act as sub-adviser to an unaffiliated independent investment adviser. Under these arrangements, each account is held at an unaffiliated brokerage firm or custodian, and is registered to the person, persons, or other entity listed on that firm’s new account forms. All securities are owned directly by the account’s registered owner or owners. WTWM directs the investment of the securities on a discretionary basis in the account under a limited power of attorney granted to WTWM by the client. WTWM is compensated by the investment management fee as detailed in the contract with the client. The Introducing Adviser receives a fee disclosed in the contract with the client and may provide continuing financial planning or other services for the client.

ITEM 5 FEES AND COMPENSATION

A. DESCRIPTION AND BILLING

In addition to the information provided in Item 4 (“*Advisory Business*”), this section provides details regarding WTWM’s services along with a description of each service’s fees and compensation arrangements. *Lower fees for comparable services may be available from other sources.*

Clients have the option to purchase investment products that WTWM recommends through other brokers or agent that are not affiliated with the Firm.

Investment Advisory Services

WTWM will charge clients an investment management fee for its investment advisory services. The investment management fee is an annual fee based on a percentage of the value of the client’s assets under management, including all cash and other assets in the account (valued at liquidation value) (the “Account Value”), as follows:

WTWM charges clients a management fee ranging from 0% to 1.5% per annum, collected quarterly in advance on the first business day of each calendar quarter based on the fair market value of the assets in the Account at the close of business on the last day of the previous quarter. The initial quarterly payment will be due at the time assets are allocated to the Account and will be based on the amount of such assets. All fees are refundable if the relationship terminates before the end of the period for which the fee is paid. Please see Section C for full Refund and Termination Policy. The Firm may, in its sole discretion, waive or reduce a fee for providing investment management services to employees, family

members of employees, and employees of affiliates of the Firm.

The investment management fee charged is subject to negotiation with each client based on the client's characteristics and may differ from client to client. The IMA is valid for terms of one year with automatic one-year renewals. Any changes, such as an increase or decrease to the investment management fee, may be made to the IMA in writing upon mutual agreement of the parties.

Any management fees due to WTWM shall be deducted by WTWM directly from the client's account, and will be paid to WTWM from the amount on deposit in the client account. The client will provide written authorization permitting the fees to be paid directly from the account. Both WTWM's advisory agreement and the custodial/ clearing agreement may authorize the custodian to debit the account for the amount of WT's management fees and to directly remit that fee to WTWM in compliance with regulatory procedures. In the limited event that WTWM bills the client directly, payment in full is expected upon invoice presentation. WTWM reserves the right to waive or reduce fees at its discretion.

Financial Planning Services

WTWM's financial planning services are offered on an hourly fee basis. Hourly fees range from \$150 to \$250 per hour for an initial plan or any update to an already existing plan.

The fees are negotiable on a case-by-case basis dependent on the amount of the assets and the complexity of the services. Compensation will be paid after all services have been rendered. All fees and refunds remain subject to negotiation at the sole discretion of WTWM.

Financial planning fees are billed in arrears upon completion of the service and delivery of the product. Payment must be remitted within thirty (30) days.

B. OTHER FEES AND PAYMENTS

There may be additional fees or charges that result from the maintenance of or trading within a client's account. These are fees that are imposed by third parties in connection with investments made through a client's account, including but not limited to, no-load mutual fund 12(b)-1 distribution fees, certain deferred sales charges on previously purchased mutual funds, and IRA and Qualified Retirement Plan fees.

C. REFUND AND TERMINATION POLICY

Clients may terminate their account without penalty and full refund, within five (5) business days of signing their advisory agreement, and thereafter at any time with thirty (30) days prior written notice to WTWM. Upon termination, the management fee for any partial period shall be prorated and any unearned amount shall be refunded to the client as of the effective date of the termination when requested in a written communication to WTWM. WTWM will also deliver to clients any financial planning products that have been completed and for which financial planning fees have been charged. The client will not be entitled to a full refund of any financial planning fees, regardless of when or for what reason the relationship between WTWM and the client is terminated.

D. OTHER COMPENSATION

Neither WTWM nor its supervised persons accept any compensation for the sale of securities or other investment products, including asset-based sales charges or services fees from the sale of mutual funds. WTWM does not charge for the publication of periodicals or wealth education services.

ITEM 6 PERFORMANCE-BASED FEES AND SIDE-BY-SIDE MANAGEMENT

A. PERFORMANCE-BASED COMPENSATION

WTWM does not assess Performance Fees.

Performance-Based Fees (“Performance Fees”) are based on a share of the capital gains or capital appreciation of the assets of a client. Our fees are calculated as described in *Item 5* above.

B. SIDE-BY-SIDE MANAGEMENT

WTWM does not provide Side-By-Side Management.

“Side-by-Side Management” refers to a situation in which the same adviser manages accounts that are billed based only on a percentage of assets under management and at the same time manages other accounts for which fees are performance-based.

ITEM 7 TYPES OF CLIENTS

WTWM generally provides investment advisory services to **individuals, high net-worth individuals, pension and profit-sharing plans, charitable organizations, insurance companies and other businesses.**

WTWM does not require a minimum account balance. We believe that every investor, large or small, deserves unbiased, uninfluenced, professional asset management services.

ITEM 8 METHODS OF ANALYSIS, INVESTMENT STRATEGIES AND RISK OF LOSS

A. METHODS OF ANALYSIS

WTWM may utilize one or more of the following methods of analysis when providing investment advice to its clients:

Fundamental analysis concentrates on factors that determine a company’s value and expected future earnings. It involves analyzing its financial statements and health, its management and competitive advantages and its competitors and markets. Fundamental analysis is performed on historical and present data but with the goal of making financial forecasts. There are several possible objectives: to conduct a company stock valuation and predict its probable price evolution; to make a projection on its business performance; to evaluate its management and make internal business decisions and to calculate its credit risk. This strategy would normally encourage equity purchases in stocks that are

undervalued or priced below their perceived value. The risk assumed is that the market will fail to reach expectations of perceived value.

Technical analysis is a method of evaluating securities by relying on the assumption that market data, such as charts of price, volume and open interest can help predict future (usually short-term) market trends. It attempts to predict a future stock price or direction based on market trends. Technical analysis assumes that market psychology influences trading in a way that enables predicting when a stock will rise or fall. Technical analysis methods employ software and other financial data management tools to assess various aspects of the marketplace. The risk is that markets do not always follow patterns and relying solely on this method may not work long term.

Cyclical analysis assumes that markets react in cyclical patterns which, once identified, can be leveraged to provide performance. Cyclical analysis of economic cycles is used to determine how these cycles affect the returns of an investment, an asset class or an individual company's profits. Cyclical analysis is a time-based assessment which incorporates past and present performance to determine future value. Cyclical risks exist because the broad economy has been shown to move in cycles, from periods of peak performance followed by a downturn, then a trough of low activity. The risks of this strategy are two-fold: (1) the markets do not always repeat cyclical patterns; and (2) if too many investors begin to implement this strategy, it changes the very cycles of which they are trying to take advantage.

B. INVESTMENT STRATEGIES

WTWM focuses on four core principles in our investment process: asset allocation, proper diversification, low volatility, and low fees. The combination of these principles is used to create WTWM's investment portfolios. WTWM offers two distinct types of investment strategies: (1) Quantitative Model, which is based on a strategic allocation across broad asset classes with a tactical allocation overlay based on proprietary quantitative analyses and (2) Three-Pronged Model, which is a combination of one or more of our Strategic Core, Sectors & Themes, and Culturally Significant Equities sub-strategies. With both strategies, the risk level can be adjusted based on the Client's specific risk tolerance and investment goals.

In the Quantitative Model, WTWM targets a globally diversified allocation across a broad spectrum of regions and asset classes. The portfolios are constructed using a combination of ETFs that are selected to provide targeted asset class and risk exposure at low fee levels. WTWM then conducts proprietary research to inform tactical asset allocations using rules-based quantitative analysis. Tactical allocations may include overweighting or underweighting certain asset classes based on both quantitative and qualitative investment criteria. The tactical allocations are subject to constraints to ensure the portfolios stay within their respective risk and diversification parameters. Quantitative Model portfolios are rebalanced to their target allocations quarterly, at a minimum, or when our analysis indicates a change is warranted. This use of quantitative analysis reduces human emotion and bias in the investment process.

WTWM also offers a Quantitative Plus model, which utilizes the same investment process as described above, with the additional feature that equity allocation is constructed with "smart beta" ETFs that seek to maximize risk-adjusted returns.

In the Three-Pronged Model, our portfolio manager blends a combination of strategic and tactical styles in an attempt to generate superior returns at a variety of customizable levels of risk.

The Strategic Core allocation of the portfolio is a combination of low volatility and dividend increasing “smart beta” ETFs that expose the investor to U.S. large-caps, mid-caps, and small-caps along with international and emerging markets. In the strategic allocation portion of the portfolio, WTWM uses in-depth analysis of global economic conditions to determine where global regional economies lie within the economic cycle. This allows our portfolio manager to position the portfolio for the next leg of the cycle. This economic analysis overlay allows us to take advantage of the natural cycles that global economies move through over any five to seven-year period.

The Sectors & Themes tactical allocation is where our managers generate alpha with a suite of sector and thematic ETFs in areas in which we believe outperformance of the broader markets can be achieved in the next 6-18 months.

The Culturally Significant Equities allocation consists of individual stocks where we invest in companies, which in our opinion, have become so culturally significant and entrenched in our daily lives that they have become the new Blue Chips of today. Based on proprietary screens WTWM utilizes in this strategy, the Culturally Significant Equities portfolio is largely focused on technology companies.

In both the Quantitative and Three-Pronged investment strategies, WTWM carefully monitors the fund holdings through ongoing review of the characteristics and performance of the selected ETFs in relation to the funds’ stated benchmark and expense ratio.

Investing in any asset comes with certain levels of unavoidable risk. Clients assume this risk when they invest with WTWM. Investors should be willing to bare losses before they consider an investment.

C. RISK OF LOSS

Clients need to be aware that investing in securities involves risk of loss of the principal.

Every method of analysis has its own inherent risks. To perform an accurate market analysis WTWM must have access to current/new market information. WTWM has no control over the dissemination rate of market information; therefore, unbeknownst to WTWM, certain analyses may be compiled with outdated market information, severely limiting the value of WTWM’s analysis. Furthermore, an accurate market analysis can only produce a forecast of the direction of market values. There can be no assurances that a forecasted change in market value will materialize into actionable and/or profitable investment opportunities.

Different types of investments involve varying degrees of risk, and it should not be assumed that future performance of any specific investment or investment strategy (including the investments and/or investment strategies recommended or undertaken by WTWM) will be profitable or equal any specific performance level(s). WTWM does not represent, warrant, or imply that its services or methods of analysis can or will predict future results, successfully identify market tops or bottoms, or insulate clients from losses due to market corrections or declines. Notwithstanding WTWM’s method of analysis or

investment strategy, the assets within the client's portfolio are subject to risk of devaluation or loss. The client should be aware that there are many different events that can affect the value of the client's assets or portfolio including, but not limited to, changes in financial status of companies, market fluctuations, changes in exchange rates, trading suspensions and delays, economic reports, and natural disasters.

All investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Investors face the following investment risks:

- **Interest-rate Risk:** Fluctuations in interest rates may cause investment prices to fluctuate. For example, when interest rates rise, yields on existing bonds become less attractive, causing their market values to decline.
- **Market Risk:** The price of a security, bond, or mutual fund may drop in reaction to tangible and intangible events and conditions. This type of risk is caused by external factors independent of a security's particular underlying circumstances. For example, political, economic, and social conditions may trigger market events.
- **Inflation Risk:** When any type of inflation is present, a dollar will be worth more today than a dollar next year, because purchasing power is eroding at the rate of inflation.
- **Prepayment Risk:** The returns on the collateral for the deal can change dramatically at times if the debtors prepay the loans earlier than scheduled.
- **Currency Risk:** Overseas investments are subject to fluctuations in the value of the dollar against the currency of the investment's originating country. This is also referred to as exchange rate risk.
- **Reinvestment Risk:** This is the risk that future proceeds from investments may have to be reinvested at a potentially lower rate of return (i.e. interest rate). This primarily relates to fixed income securities.
- **Business Risk:** This risk is associated with a particular industry or a particular company within an industry.
- **Liquidity Risk:** Liquidity is the ability to readily convert an investment into cash. Generally, assets are more liquid if many traders are interested in a standardized product. For example, Treasury Bills are highly liquid, while real estate properties are not.

Risk Factors relevant to specific securities utilized include:

- **Equity Securities.** The value of the equity securities is subject to market risk, including changes in economic conditions, growth rates, profits, interest rates and the market's perception of these securities. While offering greater potential for long-term growth, equity securities are more volatile and riskier than some other forms of investment.
- **Exchange Traded Funds ("ETF").** ETFs are a type of investment security, representing an interest in a passively managed portfolio of securities selected to replicate a securities index, such as the S&P 500 Index or the Dow Jones Industrial Average, or to represent exposure to a particular industry or sector. Unlike open-end mutual funds, the shares of

ETFs and closed-end investment companies are not purchased and redeemed by investors directly with the fund, but instead are purchased and sold through broker-dealers in transactions on a stock exchange. Because ETF and closed-end fund shares are traded on an exchange, they may trade at a discount from or a premium to the net asset value per share of the underlying portfolio of securities. In addition to bearing the risks related to investments in equity securities, investors in ETFs intended to replicate a securities index bear the risk that the ETF's performance may not correctly replicate the performance of the index. Investors in ETFs, closed-end funds and other investment companies bear a proportionate share of the expenses of those funds, including management fees, custodial and accounting costs, and other expenses. Trading in ETF and closed-end fund shares also entails payment of brokerage commissions and other transaction costs.

- **Mutual Fund Shares.** Some of the risks of investing in mutual fund shares include: (i) the price to invest in mutual fund shares is the fund's per share net asset value (NAV) plus any shareholder fees that the fund imposes at the time of purchase (such as sales loads), (ii) investors must pay sales charges, annual fees, and other expenses regardless of how the fund performs, and (iii) investors typically cannot ascertain the exact make-up of a fund's portfolio at any given time, nor can they directly influence which securities the fund manager buys and sells or the timing of those trades.
- **Real Estate Related Securities Risk.** Investing in real estate related securities includes, among others, the following risks: possible declines in the value of real estate; risks related to general and local economic conditions, including increases in the rate of inflation; possible lack of availability of mortgage funds; overbuilding; extending vacancies of properties; increases in competition, property taxes and operating expenses; changes in zoning laws; costs resulting from cleanup of, and liability to third parties for damages resulting from environmental problems; casualty or condemnation losses; uninsured damages from floods, earth quakes or other natural disasters; limitations on and variations in rents; and changes in interest rates. Investing in Real Estate Investment Trusts ("REITs") involves certain unique risks in addition to those risks associated with investing in the real estate industry in general. REITs are dependent upon management skills, are not diversified, and are subject to heavy cash flow dependency, default by borrowers and self-liquidation.
- **Municipal Bond Risk.** Municipal securities issuers may face local economic or business conditions (including bankruptcy) and litigation, legislation or other political events that could have a significant effect on the ability of the municipality to make payments on the interest or principal of its municipal bonds. In addition, because municipalities issue municipal securities to finance similar types of projects, such as education, healthcare, transportation, infrastructure and utility projects, conditions in those sectors can affect the overall municipal bond market. Furthermore, changes in the financial condition of one municipality may affect the overall municipal bond market. The municipal obligations in which clients invest will be subject to credit risk, market risk, interest rate risk, credit spread risk, selection risk, call and redemption risk and tax risk, and the occurrence of any one of these risks may materially and adversely affect the value of the Client's assets or profits.

- **Fixed Income Securities Risk.** Prices of fixed income securities tend to move inversely with changes in interest rates. Typically, a rise in rates will adversely affect fixed income security prices. The longer the effective maturity and duration of the client's portfolio, the more the portfolio's value is likely to react to interest rates. For example, securities with longer maturities sometimes offer higher yields, but are subject to greater price shifts as a result of interest rate changes than debt securities with shorter maturities. Some fixed income securities give the issuer the option to call, or redeem, the securities before their maturity dates. If an issuer calls its security during a time of declining interest rates, we might have to reinvest the proceeds in an investment offering a lower yield, and therefore might not benefit from any increase in value as a result of declining interest rates. During periods of market illiquidity or rising interest rates, prices of callable issues are subject to increased price fluctuation.

While this information provides a synopsis of the events that may affect a client's investments, this listing is not exhaustive. Although WTWM's methods of analysis and investment strategies do not present any significant or unusual risks, all investment programs have certain risks that are borne by the investor. Our investment approach constantly keeps the risk of loss in mind. Clients should understand that there are inherent risks associated with investing and depending on the risk occurrence; clients may suffer LOSS OF ALL OR PART OF THE CLIENT'S PRINCIPAL INVESTMENT.

D. RECOMMENDATION OF SPECIFIC TYPES OF SECURITIES

WTWM does not primarily recommend a particular type of security. Investments may include, but are not limited to, exchange listed securities, fixed-income securities, over-the-counter securities, foreign securities, options, derivatives, money market funds, REITs and other pooled investment vehicles, such as open and closed end mutual funds or ETF's.

ITEM 9 DISCIPLINARY INFORMATION

Registered investment advisers are required to disclose any legal or disciplinary events that are material to a client's or prospective client's evaluation of our advisory business or the integrity of our management. Neither WTWM nor any of its management persons has been involved in legal or disciplinary events that are related to past or present investment clients.

ITEM 10 OTHER FINANCIAL INDUSTRY ACTIVITIES AND AFFILIATIONS

A. FINANCIAL INDUSTRY ACTIVITIES

WTWM is not a registered broker-dealer and does not have an application pending to register as a broker-dealer. Furthermore, none of WTWM's management or supervised persons is a registered representative of, nor has an application pending to register as a representative of, a broker-dealer. However, WTWM does have the ability to service variable annuities, 529 plans and other broker-dealer products as a Registered Investment Adviser.

Mr. Heilner is the Manager of WT Tax Accounting, LLC. He spends approximately two hours every month signing checks and performing payroll activities. WT Tax Accounting, LLC does

not have a signatory authority for any client of WTWM or for WTWM itself as an entity.

Mr. Heilner and Ms. Proud are both licensed to sell insurance, though neither is affiliated with any particular agency or actively pursuing insurance business. Mr. Heilner and Ms. Proud spend less than two hours per month maintaining their licenses.

B. FINANCIAL INDUSTRY AFFILIATIONS

WTWM is not a registered Futures Commission Merchant, Commodity Pool Operator, or Commodity Trading Advisor and does not have an application pending to register as such. Furthermore, WTWM's management and supervised persons are not registered as and do not have an application pending to register as an associated person of the foregoing entities.

C. OTHER MATERIAL RELATIONSHIPS

WTWM does not have any arrangements that are material to its advisory business or its clients with a related person who is a broker-dealer, investment company, other investment adviser, financial planning firm, commodity pool operator, commodity trading adviser or futures commission merchant, banking or thrift institution, accounting firm, law firm, insurance company or agency, pension consultant, real estate broker or dealer, or an entity that creates or packages limited partnerships other than those already disclosed herein.

D. OTHER INVESTMENT ADVISERS

WTWM investment adviser representatives, Ms. Proud and Mr. Redwanc, are both dually registered with WTWM and True Financial. Ms. Proud and Mr. Redwanc spend approximately five hours per month performing advisory services for clients through True Financial.

ITEM 11 CODE OF ETHICS, PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS AND PERSONAL TRADING

A. DESCRIPTION OF CODE OF ETHICS

All employees of WTWM must act in an ethical and professional manner. In view of the foregoing and applicable provisions of relevant law, WTWM has adopted a Code of Ethics in its Employee Policies and Procedures Manual to specify and prohibit certain types of transactions deemed to create conflicts of interest (or the potential for or the appearance of such conflicts), and to establish reporting requirements and enforcement procedures relating to personal trading by WTWM personnel. WTWM's Code of Ethics in its Employee Policies and Procedures Manual, which specifically deals with professional standards, insider trading, personal trading, gifts and entertainment, and fiduciary duties, establishes ideals for ethical conduct based upon fundamental principles of openness, integrity, honesty, and trust. **We will provide a copy of our Code of Ethics to any client or prospective client upon request.**

B. PARTICIPATION OR INTEREST IN CLIENT TRANSACTIONS

WTWM does not recommend or effect transactions in securities in which any related person may have material financial interest.

C. PROPRIETARY / SIMULTANEOUS TRADING

At times, WTWM or its affiliated persons may buy or sell securities for its own accounts that it has also recommended to clients. However, any purchase or sale of a security by WTWM or a related person will be subject to WTWM's fiduciary duty to client accounts. From time to time, representatives of WTWM may buy or sell securities for themselves at or around the same time as WTWM's client accounts. In any instance where similar securities are bought or sold, WTWM will uphold its fiduciary duty by always transacting on behalf of the client before transacting for its own benefit. WTWM will always document any transactions that could be construed as conflicts of interest. To mitigate or remedy any conflicts of interest or perceived conflicts of interest, WTWM will monitor its proprietary and personal trading reports for adherence to its Code of Ethics.

ITEM 12 BROKERAGE PRACTICES

A. SELECTION AND RECOMMENDATION

WTWM seeks to recommend a custodian/broker who will hold client assets and execute transactions on terms that, overall, are most advantageous when compared to other available providers and their services.

WTWM considers a wide range of factors in selecting a custodian/broker including, among others, the following:

- ✓ Timeliness of execution
- ✓ Clearance and settlement capabilities
- ✓ Ability to place trades in difficult market environments
- ✓ Timeliness and accuracy of trade confirmations
- ✓ Quality of account statements
- ✓ Research, execution facilitation, record keeping, custody and other "value-added" services provided
- ✓ Frequency and correction of trading errors
- ✓ Financial condition and willingness to commit capital
- ✓ Business reputation and integrity
- ✓ WTWM's prior experience with the custodian/broker

To this end, WTWM has established a brokerage and custodian relationship with TD Ameritrade Institutional, a division of TD AMERITRADE, Inc., member FINRA/SIPC/NFA ("TD Ameritrade"), Folio Investments, Inc. ("Folio Investments"), member FINRA/SIPC, Charles Schwab & Co., Inc. ("Charles Schwab"), member FINRA/SIPC, and Interactive Brokers, LLC ("Interactive Brokers"), member NYSE/FINRA/SIPC. WTWM is independently owned and operated and is not affiliated with TD Ameritrade, Charles Schwab, Folio Investments or Interactive Brokers. TD Ameritrade, Charles Schwab, Folio Investments and Interactive Brokers will hold client assets in a brokerage account and buy and sell securities only when WTWM or the client instructs them to.

Smaller investors, usually those with account balances less than \$50,000, may specifically benefit from utilizing Folio Investments. Folio Investments has a unique and patented technology that allows clients to buy fractional shares in publicly traded equities and ETFs. For smaller clients, the largest hurdle they face when buying individual equities is diversification and prohibitive trading costs. WTWM now has the ability to buy 25, or more, individual equities in an effort to fully diversify the client and provide them the same exposure to the WTWM equity list as larger clients.

Clients with captive insurance accounts may find that Interactive Brokers best meets their needs.

WTWM may recommend any of the four above custodians to clients. Custodian recommendations are based on the client's account size, investment objectives, trading frequency and overall portfolio strategy. WTWM has determined that having the four selected custodians execute trades is consistent with our duty to seek "best execution" of client trades.

B. BUSINESS CONTINUITY

WTWM has created and maintains a written business continuity plan which identifies procedures relating to an emergency or significant business disruption, including death or incapacitation of the investment adviser or any of its representatives. Such procedures are reasonably designed to enable WTWM or any of its representatives to meet their obligations to clients.

WTWM will also provide clients a list of emergency contact numbers, including those for their custodian, in the case that they are not able to reach WTWM due to a continuity issue.

C. RESEARCH AND OTHER SOFT DOLLAR BENEFITS

WTWM does not currently receive "soft dollars."

Under "soft dollar" arrangements, one or more of the brokerage firms would provide or pay the costs of certain services, equipment, or other items. These soft dollar benefits are attributed to the investment adviser by reducing its expenses; however, the amount of the fee paid to the investment adviser by the client would not be reduced. Making allocations to brokerage businesses with soft dollar arrangements could enhance the ability to obtain research, optimal execution and other benefits on behalf of clients.

D. BROKERAGE FOR CLIENT REFERRALS

WTWM does not receive client referrals from third parties for recommending the use of specific broker-dealer brokerage services.

E. DIRECTED BROKERAGE

WTWM will recommend to clients TD AMERITRADE Institutional, a Division of TD AMERITRADE, Inc., Charles Schwab Brokerage and Foliofn, Inc., and Interactive Brokers, members FINRA and SIPC. These arrangements are designed to maximize efficiency and to be cost effective for WTWM's clients. By requiring clients to use these specific custodians, which WTWM has approved, WTWM seeks to achieve "best execution" of client transactions. WTWM has to date acquired two other investment advisory firms.

Clients from these firms are allowed to maintain their accounts at their current brokerage firm.

WTWM does not permit clients to direct the use of a particular brokerage firm.

F. ORDERAGGREGATION

WTWM may, at times, aggregate sale and purchase orders of securities (“block trading”) for advisory accounts with similar orders in order to obtain the best pricing averages and minimize trading costs. This practice is reasonably likely to result in administrative convenience or an overall economic benefit to the client. Clients also benefit relatively from better purchase or sale execution prices, lower commission expenses or beneficial timing of transactions or a combination of these and other factors. Aggregate orders will be allocated to client accounts in a systematic non-preferential manner. WTWM may aggregate or “bunch” transactions for a client’s account with those of other clients in an effort to obtain the best execution under the circumstances.

G. TRADE ERROR POLICY

WTWM maintains a record of any trading errors that occur in connection with investment activities of its clients. In accordance with SEC recommendations, WTWM will bear any losses due to trading errors and the client account will benefit from any gains due to trading errors.

ITEM 13 REVIEW OF ACCOUNTS

A. PERIODICREVIEWS

WTWM reviews its clients’ account activity on an on-going basis with a formal review at least quarterly. The reviews consist of determining whether a client’s investment goals and objectives are aligned with WTWM’s investment strategies. If rebalancing or reallocation of investments is necessary, WTWM sells underperforming investments or buys new investments that are more appropriate for the client’s investment goals and objectives. The reviews are overseen by Dave Johnson, Chief Compliance Officer of WTWM, with the involvement of the CIO, the Business Director and individual advisers.

B. INTERMITTENTREVIEWFACTORS

Intermittent reviews may be triggered by substantial market fluctuation, economic or political events, or changes in the client’s financial status (such as retirement, termination of employment, relocation, inheritance, etc.). Clients are advised to notify WTWM promptly if there are any material changes in their financial situation, investment objectives, or in the event they wish to place restrictions on their account.

C. REPORTS

Clients may receive confirmations of purchases and sales in their accounts and will receive, at least quarterly, statements containing account information such as account value, transactions, and other relevant information. Confirmations and statements are prepared and delivered by the custodian.

ITEM 14 CLIENT REFERRALS AND OTHER COMPENSATION

A. ECONOMIC BENEFITS FROM OTHERS

WTWM does not receive an economic benefit (such as sales awards or other prizes) from any third party for providing investment advice or other advisory services to its clients.

WTWM's advisers may attend events hosted by third parties with whom WTWM may or may not do business with, including fund managers, portfolio managers and others. These third parties may cover the cost of travel, lodging and meals for the advisers who travel to these events. WTWM ensures any potential conflict of interest is mitigated by requiring approval for such events and that such events must be educational in purpose. WTWM and its advisers do not accept any other economic benefits from these third parties.

B. COMPENSATION TO UNAFFILIATED THIRD PARTIES

WTWM may, at times, enter into soliciting agreements to provide cash compensation to third parties for client referrals or introductions to WTWM. Our compensation agreements are in accordance with Rule 206(4)-3 under the Investment Adviser Act of 1940 and the applicable state regulations. To the extent required by Rule 206(4)-3 or applicable state regulations; the compensation is disclosed to clients by the third-party referral source in a separate disclosure document. Generally, these arrangements provide compensation equal to a specific percentage of certain fees received by WTWM. This arrangement creates a conflict of interest in that cash compensation may impair the solicitor's evaluation of the client's suitability for WTWM's programs. To mitigate or remedy this conflict of interest the Chief Compliance Officer will review referrals to ensure suitability with WTWM's programs before compensating the solicitor. Prior to compensating any individual for referrals, WTWM will ensure that these individual solicitors are appropriately registered as investment adviser representatives, if registration is required by the jurisdictions in which solicitation activities are conducted.

Certain clients that engage WTWM's services as result of referrals from Introducing Advisers may pay more or less to obtain WT's investment management services than do other clients, since a portion of the overall fee may be determined by the Introducing Adviser. In such situations, where the client pays more, the engagement shall result in an additional charge to the client in excess of what the client would have paid if the client were to engage the services of WTWM independent of the Introducing Adviser's introduction. Variations in the Introducing Adviser's compensation may be due to the Introducing Adviser's role as an unaffiliated investment adviser or investment adviser representative for the consulting and monitoring services the Introducing Adviser may provide to the client on an ongoing basis relative to the client's engagement of WTWM. Such arrangements, and their terms and conditions, are exclusively determined between the client and the Introducing Adviser, and WTWM will not be a party to these arrangements. Retail clients may pay more or less to obtain WT's investment management services than clients referred to WTWM by an Introducing Adviser.

ITEM 15 CUSTODY

A. CUSTODIAN OF ASSETS

Custody means holding, directly or indirectly, client funds or securities, or having any authority to obtain possession of them.

WTWM has custody due to its authority to deduct advisory fees from client accounts and because it can, subject to a standing letter of authorization, dispose of client funds or securities. WTWM will not maintain physical possession of client funds and securities. Instead, client's funds and securities are held by a WTWM preferred, qualified custodian.

While WTWM does not have physical custody of client funds or securities, payments of fees may be paid by the custodian from the custodial brokerage account that holds client funds pursuant to the client's account application. Prior to permitting direct debit of fees, each client provides written authorization permitting fees to be paid directly from the custodian.

From time to time, WTWM may receive standing letters of authorization from a client ("SLOA") whereby the client instructs its custodian to accept instruction from WTWM to direct funds from the Client's account to specific accounts of the client ("First Party SLOA") or to third parties unrelated to WTWM and its investment adviser representatives ("Third Party SLOA"). WTWM will review each SLOA prior to acceptance to ensure it meets these requirements. It will also periodically review the SLOAs it has from Clients to ensure it meets these criteria.

First Party Standing Letters of Authorization. Under applicable SEC guidance, WTWM may accept First Party SLOAs without being deemed to have custody if the First Party SLOAs meet the following criteria:

- (a) It is authorized by the Client.
- (b) A copy of the authorization is provided to the qualified custodians.
- (c) It clearly specifies the name and account numbers (including ABA routing numbers) on the sending and receiving accounts and the qualified custodian holding each of those accounts.
- (d) It identifies the accounts as belonging to the Client.

Third Party Standing Letters of Authorization. In the case of Third Party SLOAs, WTWM may be deemed to have custody of such Client's funds under applicable federal law. Under applicable SEC guidance, WTWM may accept such custody without the requirement to obtain an annual surprise audit examination if the SLOAs meet the criteria set forth below.

- (a) The Client provides an instruction to the qualified custodian, in writing, that includes the client's signature, the third party's name, and either the third party's address or the third party's account number at a custodian to which the transfer should be directed.
- (b) The client authorizes WTWM, in writing, either on the qualified custodian's form or separately, to direct transfers to the third party either on a specified schedule or from time to time.
- (c) The Client's qualified custodian performs appropriate verification of the instruction, such as a signature review or other method to verify the client's authorization, and

provides a transfer of funds notice to the Client promptly after each transfer.

- (d) The Client has the ability to terminate or change the instruction to the Client's qualified custodian.
- (e) WTWM and its investment adviser representatives have no authority or ability to designate or change the identity of the third party, the address, or any other information about the third party contained in the Client's instruction.
- (f) WTWM maintains records showing that the third party is not a related party of the investment adviser or located at the same address as the investment adviser.
- (g) The Client's qualified custodian sends the client, in writing, an initial notice confirming the instruction and an annual notice reconfirming the instruction.

B. ACCOUNT STATEMENTS

Although WTWM is the client's adviser, the client's statements will be mailed or made available electronically by the broker-dealer or custodian. When the client receives these statements, they should be reviewed carefully. Clients should compare asset values, holdings, and fees on the statement to that in the account statement issued the previous period.

ITEM 16 INVESTMENT DISCRETION

It is WTWM's customary procedure to have full discretionary authority in order to supervise and direct the investments of a client's accounts. Clients grant this authority upon execution of WTWM's IMA. This authority is for the purpose of making and implementing investment decisions, without the client's prior consultation. All investment decisions are made in accordance with the client's stated investment objectives. Other than management fees due to WTWM, which WTWM will receive directly from the custodian, WTWM's discretionary authority does not give authority to take or have possession of any assets in the client's account or to direct delivery of any securities or payment of any funds held in the account to WTWM. Furthermore, WTWM's discretionary authority by agreement does not allow it to direct the disposition of such securities or funds to anyone except the account owner.

ITEM 17 VOTING CLIENT SECURITIES

WTWM will not vote proxies which are solicited for securities held in client accounts. WTWM will not be required to render any advice with respect to the voting of proxies solicited by or with respect to the issuers of securities in which assets of the client's account may be invested in occasionally. Furthermore, WTWM will not take any action or render any advice with respect to any securities held in any client's accounts that are named in or subject to class action lawsuits. WTWM will however, forward to the client any information received by WTWM regarding class action legal matters involving any security held in the client's account.

ITEM 18 FINANCIAL INFORMATION

A. BALANCE SHEET REQUIREMENT

WTWM is not the qualified custodian for client funds or securities, and does not require prepayment of fees of more than \$1,200 per client, six (6) months or more in advance.

B. FINANCIAL CONDITION

WTWM does not have any financial impairment that would preclude the Firm from meeting contractual commitments to clients.

C. BANKRUPTCYPETITION

WTWM has not been the subject of a bankruptcy petition at any time during the last 10 years.

PRIVACY POLICY

An important part of the relationship we have with our Clients is the information they share with us. We want each Client to know how we treat their private information.

We keep personal information such as Social Security Numbers and account balances confidential. We take steps to safeguard this data from anyone who should not have access to it. We do not sell this information to anyone.

In dealing with WT Wealth Management, LLC, clients can expect that we will take the steps outlined below to keep all of their information confidential and secure.

Our Privacy Policy

In providing financial services and products to our clients, we collect certain non-public information about them. Our policy is to keep this information confidential and strictly safeguarded, and to use or disclose it only as needed to provide services to our clients, or as permitted by law. Protecting your privacy is important to us.

Information We Collect

The non-public personal information we have about clients includes what they give us when opening an account or communicating with us. This could include

- Name and address
- Social Security Number
- Investment objectives and experience
- Financial circumstances
- Employment
- Account balance and account transactions.

Information We Disclose

We do not disclose personal information about our clients to third parties. We may disclose anonymous information that cannot be linked to an individual client on occasion, but only to companies that we hire to help us provide products and services to our clients, or as required by law, or as authorized by the client personally.

We do not sell personal client information to anyone.

How Information Is Used

We use information about our clients to provide our asset management services to them, such as managing their investment account. We may disclose this information to third parties as permitted by law, including the outside broker-dealers, custodians, administrators, transfer agents, accountants or attorneys that we need to use to provide our services to clients. From time to time, we must give information about our business to regulatory authorities. This may, or may not, include personal information about our clients and their accounts.

How Information Is Safeguarded

We have procedures in place that we believe are reasonably designed to protect the security and confidentiality of client information. These include confidentiality agreements with companies we hire to help us provide services to clients, password-protected user access to our computer files, and strict confidentiality policies that apply to all WT Wealth Management personnel, vendors and contractors.
